

“You are what you repeatedly do. Excellence is not an event – it is a habit.”
--Aristotle

Welcome to the Physicians Surgical Center, where a team of talented individuals are working together toward a common goal - “exceeding the expectations” of each and every patient, family and friend. Where expert clinicians and support staff focus on providing quality and efficient care to match the unique needs of each individual they encounter.

Thank you for visiting us and giving us this opportunity to share our enthusiasm about caring for the people of this community.

The Physicians Surgical Center is owned by a group of local physicians and Novamed, a national management company. The physician staff represents the “cream of the crop” – the best in the county for each of the specialties: ENT, orthopedics, ophthalmology, general surgery, urology and pain. Novamed is recognized as one of the leading management companies for ambulatory surgery centers. The center’s anesthesiologists are the sole providers of anesthesia and all are recognized as experts in their field. Nurses, OR technicians and front office staff have a wealth of experience in their fields and patients have reported that they can “feel” the staffs’ caring attitudes.

Every patient that enters the Physicians Surgical Center is greeted with a smile. And another. And another. We know that having surgery can be scary experience and we want patients to know they can trust our team to provide the best possible care. Procedures are performed in one of our 3 operating rooms or procedure room using state of the art equipment and technology and following advanced therapeutic techniques. We are AAAHC and Medicare Certified and Licensed by the Department of Health.

What can patients expect: quality outcomes, patient satisfaction, efficiency of care and reasonable prices, a warm and trusting environment created by a very special team – working together – a team of staff who seek to make a difference in the lives of all patients.

At the Physicians Surgical Center, we are not just striving for excellence, **we expect it!** Excellence is our habit.

We are proud to invite you to visit our center. We love what we do and we want to share that with you. Please take a moment to contact us on-line or feel free to stop in for a personal tour. We hope you, too, will be excited by what you see! We look forward to your visit and do come with high expectations – “expect excellence” – we are confident you will find what you are looking for at the Physicians Surgical Center.

On behalf of the Board of Directors and staff, thank you for allowing us the opportunity to serve you. Just tell us when!

Sincerely,

Monica M. Ziegler, MSN, CASC
Administrator, Physicians Surgical Center
