

LATEX ALLERGY?

If you have an allergy to latex, it is important that you inform your health care provider at the start of any test or procedure.

Risk factors include persons with:

- **Spina Bifida**
- **Allergic reaction to latex-containing products such as balloons and rubber gloves**
- **Food allergies to avocados, apricots, bananas, celery, chestnuts, cherries, figs, grapes, kiwi, melons, nectarines, papaya, passion fruit, pineapples, peaches, plums, potatoes, and tomatoes.**
